

Safe Futures 2020 Holiday Wish List

Family Code:
ACNL34

For the safety of donors, clients, and staff, we have modified our program this year as a result of the COVID-19 pandemic. Please note there are fewer items on wish lists than in previous years. We encourage including gift cards for special needs or for a holiday meal. Thank you for kindness and generous spirit!

After 18 years of demeaning verbal abuse and several brutal physical attacks, Carlene couldn't take it any longer. She left.

Her children were very supportive of leaving and moving to a new, safe place. She immediately filed for divorce and full custody of the kids. Due to medical problems resulting from the abuse, she currently is only able to work part time and is struggling financially. The staff at Safe Futures is inspired by Carlene. She is always pleasant, positive, and focused on taking care of her children. She is thankful for any help this holiday season and is grateful for Safe Futures and our donors for all of the support, joy, and hope they provide.
