

Safe Futures 2020 Holiday Wish List

Family Code:

AH12

For the safety of donors, clients, and staff, we have modified our program this year as a result of the COVID-19 pandemic. Please note there are fewer items on wish lists than in previous years. We encourage including gift cards for special needs or for a holiday meal. Thank you for kindness and generous spirit!

Barbara is a loving, brave mom now raising her children as a single parent. Her estranged ex-husband is in jail on multiple criminal domestic violence charges. Determined to raise her family without violence and abuse, she is working with staff at Safe Futures to build a new, safe life for her family, free from fear. Working full time, she gets no financial support from her estranged husband, and is struggling financially. She is so grateful to Safe Futures and the wonderful donors who provide comfort and hope, especially at this time of year..
